**NOTICE IS HEREBY GIVEN** that the California Department of Conservation, Division of Oil, Gas, and Geothermal Resources (“Division”), in consultation with the State Water Resources Control Board (“Water Board”) (collectively, “State Agencies”), is proposing to designate the eleven aquifers historically treated as exempt as non exempt aquifers and, therefore, subject to the protections of the federal Safe Drinking Water Act. Further, the State Agencies plan to request that the United States Environmental Protection Agency (“US EPA”) clarify the record accordingly. The US EPA’s approval of the State’s UIC program in 1983 contains conflicting information about the exemption status of these aquifers. The State Agencies have reviewed the available information available as of April 2015 and find that the historical data for these aquifers does not meet the federal or state regulatory criteria for exemption from SDWA.

Yes, I'll get one of our ORC lines and send it to folks. Hope to send out to bulleted thoughts on our main issues by the end of the day so we're on the same page for the call.

Alexa,

Jerry Salera will join us on the call to discuss the public notice regarding treatment of the 11 aquifers historically treated as exempt. 3:00 on Tuesday works for both of us.

Justin-

It looks like we may need to find a time next week, there is a significant amount of work and personal travel among folks here. I'll be in touch when I know their availability.

Thanks,

Alexa

Hi Alexa,

Tomorrow, 1:00 is pretty much my only available time. I'm free from 10:00 to 3:30 on Wednesday.

Justin:

I wanted to see if we might schedule a call to discuss the proposed notice. I've spoken with David and Michele and they would like to join, not sure if you want to invite folks from the program in DOGGR. Hoping to find a time early next week, perhaps Monday or Tuesday?

Thanks,

Alexa
